

Executive Officer 221 Admin

25X1A9a

If Mr. [REDACTED] does not feel that a directive is necessary, I will go along with not putting one out at this time. However, I would point out that the Medical Staff, Security Office and OSI are also involved in this field and that the delineation of responsibility at this time is rather unclear. Also attached is a letter to [REDACTED] for the Director's signature.
